

NIKHIL PATIL

Software Developer Beginner

A. Bokadvira, Uran, Navi Mumbai, 400702

P. +91 7774072857

E. nickpt.0699@gmail.com

G. www.github.com/zapysolo

Self-motivated and hardworking seeking for an opportunity to work in a challenging environment to prove my skills and utilize my knowledge & intelligence in the growth of the organization.

Education

Secondary School Certificate (SSC)

St. Mary's High School & Jr. College, Uran

May 2013-May 2014

Higher Secondary Certificate (HSC)

St. Mary's High School & Jr. College, Uran

May 2015-May 2016

Bachleors in Computer Engineering(B.E)

Rajendra Mane College of Engineering and Technology, Ambav

May 2017-Ongoing

Internship

CreativeWebo, Kurla

29-11-19 to 10-01-20, 280hrs

- Learned Wordpress and also worked on a project. I added Payment Gateway to a live project
- Improved my ReactNative skills by going through already build professional projects. Also worked on a group project.
- Learned to use Git and Postman comfortably enough to work with a group.

Projects

Care32Dental (assigned by CreativeWebo)

29-11-19 to 21-12-19

- Needed to add a Payment Gateway into an already build Wordpress Website.
- Created a beta of live website and after successfully connecting it to CCAvenue added it to live project.
- I made use of core PHP and with help of 'XYZ PHP Code' library I inserted the php code in Wordpress. Also created the documentation of my work for further support.
- My work is live and is been actively used.

AUB Bank (assigned by CreativeWebo)

29-12-19 to 9-01-20

- Needed an Android Application for their Employees.
- Created the base of the android application which included Sign-in, Meetings List/Details Page, Search Funds Page, Fund Details.
- I was assign to use ReactNative and with help of 'react-native-navigation' library i implemented my work. I worked with the backend developer to achive the result.
- I successfully performed all the task assigned to me.

Personal Projects

B.E Project Management System (BEPMS)

2-20 to 5-20

- College Group Project to manages the final year engineering students projects.
- I created the frontend using React and Codeignitor and backend using MySQL database.
- I regularly used Postman to test my backend program. I managed and hoisted the project on hostinger and is currently live on www.projects.zapytech.site. Used FTP client FileZilla for hoisting the project.
- Our work was appreciated by the faculty and was also considered to be used for the next batch students.

Certifications

E-Developer (RVR Institute, Vashi)

9-16 to 9-17

Programming Languages included : JavaScript, HTML5, PHP , CSS, JAVA, C, C++.

Skill Highlights

Complex problem solver

Service-focused

Project management

Ability to grasp the new skills

Hard-working

Presentation skills

Languages

English

Hindi

Marathi

Programming

React

ReactNative

Node

MySQL, MongoDB

Codeignitor

PHP

Bootstrap

Python

Java

Additional Details

Software

Operating System : Windows 7/8/10 XP, Ubuntu, MacOSX, FedoraOS

Applications: Git, Sketch, FileZilla, Postman, VS Code, AnyDesk, MS Word, MS Powerpoint, MS Excel

Hobbies

Reading, Music, Learning New Programming Skills, Sports, Hiking
